

Cleveland High School has a beautiful new track and field, but our stadium needs a new sound system to become the facility our students deserve. The antiquated system produces more static than sound and limits opportunities for students to perform.

The Cleveland High School Booster Club is seeking direct donations to help pay for the cost of the sound system. Thanks to a generous bid by a Cleveland family, a complete sound system can be purchased and installed for roughly \$7,000.

Most of the money raised by the Booster Club each year goes toward filling unanticipated needs for sports teams, financial aid for students wanting to participate in sports, recognizing scholar athletes and awarding scholarships. But the Booster Club sees the sound system as vital to a positive experience for athletes and so it committed to raising money to install a new one.

The Booster Club has been holding small fundraisers to try to reach this goal, but so far has raised less than \$500 and wants to try to achieve the new system as soon as possible. That's why we are making a direct appeal to the generous Cleveland community to donate to the effort. Through your donation, you can make a major difference in the quality of the experience for thousands of student athletes for years to come. Any contribution would be appreciated.

Thanks for your consideration and your generosity,

Michael Arrieta-Walden ([pdxmikefran@yahoo.com](mailto:pdxmikefran@yahoo.com))
